Re: Coakley Landfill Superfund Site, North Hampton, N. H.

Dear Sir:

In reply to your letter requesting information about the waste material being generated by The Portsmouth Herald and the above named landfill, I can find no evidence that waste material from the Herald has ever been disposed of at the Coakley site.

Our Waste Management company is BFI of Portsmouth and they have been our disposal company since 1983. I have spoken with Patrick Moore (who manages our account with BFI) and he tells me that BFI has never used the Coakley site.

The company who dealt with our waste material prior to 1983 was Great Bay Disposal, Inc. This company was bought out by BFI in 1983. Mr. Moore was unable to tell me whether or not Great Bay Disposal ever used the Coakley site, but put me in touch with a BFI attorney in Texas who is now researching their take over of Great Bay Disposal and will get back to me early in the new year with information about the sites they used (Great Bay Disposal) prior to the BFI takeover.

Once the response from BFI has been received I will be able to complete with confidence the numbered requests you require per Attachment A of your letter.

Sincerely,

  
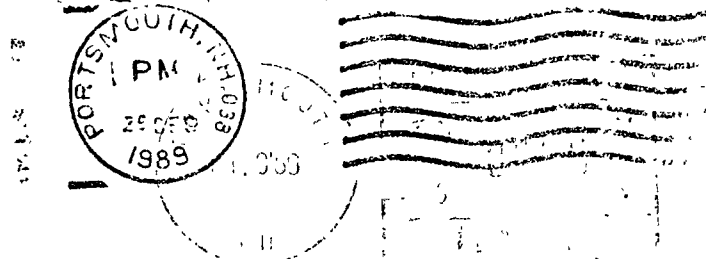

Derek L. Wood

General Manager
